CRUDE OIL

Found in a Natural Gas Well in This City.

Charles Bohler Takes Out Four Barrels of the Product.

Kindlike will not be in it with Cloverport.

When the oil district surrounding this city is developed it will make a great many men wealthy.

While Charles Bohler was cleaning out the gas well near the Cloverport brick plant Monday he scooped out from the hole four barrels of crude petroleum.

It is of a lighter color and thinner consistency than the South Lima oil and will compare favorably with the Pennsylvania product.

The oil found in the hole has been forced up from the reservoir in the Trenton rock by the immense gas pressure. It undoubtedly comes through a fissure.

When a new hole is sunk it should at least penetrate to a depth of 100 feet.

There is a veritable ocean of oil underlying Cloverport and it will be the making of this town yet, you bet.

W. O. Allen Resigns.

Mr. W. O. Allen, agent of the Louisville, Henderson and St. Louis railway, who has been acting in this capacity since the first of January, has resigned his position.

He has been long enough to be accepted to take effect May 1.

There has been some dissatisfaction as to his manner of conducting the business of the office in this city by a few persons, who have brought about this change, but as to the officials of the road finding any fault this cannot be ascertained.

Mr. Allen has proven himself to be a man of the highest integrity and of strong ability. He could always be relied on by his post, and as a dispatcher of business, he will be hard to find.

He has been here long enough to be identified with the people and like with the county. He has a number of positions in view, but has not decided where he will locate. In all probability he will take charge of an office for the L. and N. railroad.

The Revival Meeting.

The people of this city are now enjoying a genuine old-time revival at the Elm-street M. E. church. Rev. T. V. Joiner, pastor of the church, has the able assistance of Rev. F. F. Foose, of Havensville.

The meeting has only been in progress two weeks and much enthusiasm is being manifested by all for it to be a successful and a good meeting. Large congregations turn out day and night. Rev. Foose, while comparatively a young man, yet he possesses a wonderful and broad knowledge of the gospel. His sermons are logical, entertaining and instructive and no one should miss this valuable opportunity of hearing an excellent discourse. The meeting will continue throughout the week and as long as the interest continues.

Old Bachelor.

The top of the "Old Bachelor" was the latest to be sprung by a party of Cloverport girls when in assemblage on Monday evening. As it is well known that this city occupies the share of the game boys and there are many who are quite attractive. It is enough to give inspiration to this interesting theme.

The "Bachelor" under consideration were Dr. A. A. Simon, Silas Lillard, Frank Payne and John Vest. They were in a quandary as to the correct way of deciding the contest and after many plans and propositions it was finally decided that Linda Silas Lillard and Frank Payne would be the ones to have the honor. An emblem has not been selected but it will not be long until these gentlemen will be presented with a pin, signifying that they are the only two members of this order.

Of course he accidentally caught all except the rabbits. COMMERCIAL CONVENTION.

A Meeting that is Deemed to Bring Kentucky to the Front.

TIMELY TOPICS DISCUSSED BY LEADERS

The State Convention, which will be held in Louisville on May 11 and 12, is a move in the right direction. The business men of Kentucky should get together. Prominent business and professional men from every section of the State will gather at Louisville May 11th and 12th to attend the State Commercial Convention. This coming together of the brain and energy of the State can not help but result in great good to the old Commonwealth.

We understand that the luncheon men of Louisville have made arrangements to royally entertain the business and professional men of Kentucky who will attend the State Commercial Convention to be held in that city on May 10 and 12. The State Commercial Convention which will be held in Louisville on May 11 and 12 will bring together many of the best business men of Kentucky for the purpose of devising ways and means for developing the hidden wealth as well as advertising to the world the natural advantages of the State.

There is no reason why Kentucky should not be the center of attraction for capitalists seeking investment in the South. Her lands are fertile and her climate good. We believe that the State Commercial Convention, which will be held in Louisville May 11 and 12, is a result in plan that will let the outside world know about the good things we have to offer them.

The State Commercial Convention will make an earnest effort to extend and improve our country roads to enhance the value of agricultural products by diversifying our products and considering the best means for reaching the world's markets.

Hawesville last Saturday. Their pony

refused to pull, reared up and fell back

on the buggy breaking it up.

The Pellville Mow Club is strutting

around here. Some important bills have

passed, one moving the State Capitol

here and one moving the Asylum

from Hopkinsville here. A bill was

introduced last meeting proposing to tax

the men in the moon but was laid on the

table.

Every evening people rush to the post

office here to call the dailies and read

war news. They have nearly given up

hope for 30 days past all a fearful wild

storm follows in time to blow away the

snow, then it is so cold a man can carry

live out doors. Quite a lot of ex-

ecent prevail among the soldiers men

of our command, several conscripts are

held each day, and I am sure if the

plans could be put to work Spain would

be completely demoralized by the first

May.

We have only four companies of about

sixty men each, but they are so well

trained and disciplined they can take

any number of men and do more than

any other force. I am real glad I
